We're going to cut a Melon

EVER HEAR OF AN IRIS MELON?

Well, they're generally something to be eyed with suspicion, but this one is the real thing . . . Turn this over and cut yourself a slice!

COOLEY'S GARDENS
SILVERTON, OREGON

U. S. Dept. of Agriculture
Library
Washington D. C.

The time is Ripe!

● We are in the midst of transplanting our crop of tens of thousands of fine iris. Now we have just nine acres of ground, but there is stock enough to plant fifteen!

Out of a total of some two hundred varieties, we have an immense surplus of only the 24 sorts listed below — huge rhizomes of sure blooming size, bulging with increase buds, and a great mop of long fibrous roots. You have never seen such plants!

So here is your chance for a slice of this juicy melon: We want you to try an initial order of Cooley Iris, and since our files indicate that you already have a copy of our catalog, we simply refer you to the page on which each variety is described and priced. . . Look them up, then check your preference, cut out the coupon and mail with your remittance.
